PROJECTS

Analysis of Non-Performing Assets (NPAs) in Public Sector Banks

- Analysed asset quality, credit risk, and recovery mechanisms in Indian Public Sector Banks using RBI publications, annual reports, and financial data.
- Assessed GNPA, NNPA, and Provision Coverage Ratio (PCR) trends to evaluate banking performance and financial stability.
- Suggested improvements in credit monitoring and risk management based on research findings.

Executive Financial Analysis – Global Accounting & Professional Services Firms

- Conducted comparative financial research on the world's ten largest accounting and professional services networks, including Deloitte, PwC, EY, KPMG, BDO, Grant Thornton, Baker Tilly, Crowe, RSM, and Forvis Mazars.
- Developed executive financial fact sheets by analysing annual reports, revenue trends, workforce metrics, and strategic initiatives.
- Presented comparative financial insights through concise executive-level reports.

Impact of GST on Investment in India

- Studied the impact of GST on investment, manufacturing, SMEs, and foreign direct investment in India.
- Analysed tax reform measures using government publications and industry research.
- Evaluated the effect of GST on business efficiency and economic growth.
